800x1600 MM

ABOUT US

Great businesses are built on the base of a core need, a sustainable, affordable and satisfying solution that can be produced and delivered on time as and when the need arises. Great businesses should also focus on corporate social responsibility and environmental issues.

We at **TYQOON GROUP** understand this concept very clearly. We work on an innovative business model and truly creative product lines that are trendy, contemporary and inspiring.

With a team of experienced professionals from ceramic and various other sectors, we are set to deliver the most awesome and technically sound products.

We have developed our processes such that we have quick response capabilities because of our experience and expertise.

Located in Morbi, we are at the epicenter of tiles and ceramic products in India. Supported by good infrastructure and network of technologists and channel partners, we back ourselves to supply large quantities to customers across the world.

Our exceptional product is “Marbo Crust”, a unique slim slab, strong and durable, built like a vitrified tile but has aesthetics of marble.

BIGGER THEN
EVER BEFORE

800x1600 MM

1200x1200 MM

600x1200 MM

Resemblance of our tiles to natural stones is absolutely delightful. The marble type granular or vein like structure is not limited to surface, but goes to the depth of the total cross section of tile.

It can be ground or cut or chamfered and yet the granular beauty will unveil its glory to the fullest.
